5] **Play Area Equipment**

Standing Orders were suspended at 7.48pm.

Mr Ian Lewin updated members in regard to the proposed new play equipment scheme being erected on land at the rear of the village hall and said the contract for installation of the equipment and other work had been given to Faulkes and Co of Sutton Bonington. Mr Lewin said if the contingency included in the overall cost of the project was not called on, the parish council would not have any costs to find to help fund the new facility.

Mr Lewin informed the council that due to the unsuitability of ground conditions it would be necessary to slightly resite the rodeo board. The council agreed that a letter should be sent to the local residents who had previously been in touch with the council to advise them of that. The contract with Faulkes and Co included the cost of felling two trees and other pruning work but the removal of the existing grass matting from the site of the previous play equipment item was not included.

Comment was made on the need to use the car parking space in front of the hall while the installation work was in progress. It was planned that would take place in early December and be completed by Christmas.

Standing Orders were reinstated at 8.18pm.
